It would not sing, it would not eat, but just drooped and seemed to be pining away. We talked to it, and tried by every means in our power to cheer the bird up, but all in vain. My wife was on the point of carrying the bird back to the store when one day a friend said: "Give him a

movement will be under full headway. | ten."

The Philadelphia Record, an originator of centennial celebrations, and proposer of a religious parliament in Jerusalem in 1900, wants to establish an international eligious university in the holy city. Exponents of every religious belief are to have representation in the faculty. The school or college will be open to representatives of every creed, the only qualification being that the teacher shall be supported by the r 'ionality or denomination so appoint him. Every government will be exp .ted to help support such an institution. Contributions are to be in the form of annual donations or the sending of teachers, who are to be furnished with every facility for the ropagation of their peculiar tenets and apported in a manner in keeping with he government or creed represented.

The statement is frequently made that nine-tenths of the farms are mortgaged for all they are worth, and before the reports of our last census were analyzed it was generally believed that the amount of farm mortgage indebtedness was simply appalling. Fortunately, the facts of the case show a very different state of affairs. According to a special article in a recent number of the American Agriulturist, the census reports show that three-quarters of all the farms in the United States are owned free of incumbrance. Only one-fourth of the American fart s are mortgaged, and the average mortgage represents only one-third of the value of the farms on which it is secured. The total amount of all our farm mortgages is hardly one-tenth of the value of the farms. The Agriculturist says: "Out of every 100 families on American farms in 1890 forty-seven owned their farms free of mortgage, twenty owned, but with incumbrance, and thirty-two hired the farms they lived on and worked. Of those who cultivated their own farms, 70 per cent. owned without incumbrance, and only 30 per cent. had mortgages. Of the farms occupied by tenants less than 10 per cent. were incumbered. Four-fifths of the amount of debt on farms and homes were incurred for the commendable purpose of buying and improving the property, and a like proportion of the number of farms and homes were mortgaged for the same purpose." Between 1880 and 1890 no less than 600,000 new farms were occupied in the South and West. Still, agriculture is not overcrowded, and it is evident that if three-fourths of our 4,500,000 farms are free of debt that this industry must be a safe one to follow. This should draw the hat he will preach his farewell sermon attention of thousands of young men in the cities to the possibilities of farming. and it should induce them to give up the uncertain and hard conditions of city life for independence and comfort on a farm. iw Zealand, Australia and other places With patience, industry and economythe only thing the tarmers of the South need is to give more attention to raising their own supplies, and then all the cotton they can cultivate. This would make them independent of the world.

April is the Time.

The State, Feb. 23. It was last Monday that the State said that the political pot of reform in this State was boiling merrily, that some surprising things were going on and that probably before the end-of the present probably before the end of the present week some of them, showing a remarka-ble condition of affairs would be made public. It was impossible then to tell anything definite, although the represen-tatives of the State were well informed and are better informed now of the moves and counter-moves that have been made

two factions known as the Irby faction and the Alliance-Reform faction. A good many have been looking for it to be settled and nothing come of it, but it doesn't convention. Irby and his men, after a conference in Washington, declared just as strongly against the holding of such a convention, and Governor Tillman did the same. But he soon saw his error, wind was blowing and clambered up on fact that this convention, which the be held during the first or second week of April—not later. And the call is going to be issued in a few days. It may be that it will be made public to-morrow or Monday. And it may surprise the public to brow that Government with, for he will either directly or in-directly issue this call. It will appear that some kind of a compromise has been made up. So it has, but the Alliance-Reform people are the undoubted mas-ters of the situation. Just why this statenot make it public, and yesterday a cor-respondent sent out the fact from Wash-ington. When Governor Tillman was he will call the convention, but the State regards this as merely a ruse on the part of the Governor, and if he does not call the convention directly he will indirectly do so, and his name will appear affixed

directly against the expressed desire of the Irby faction. Just now it appears that Ellerbe is the man who will head the ticket. He certainly seems to have the strongest showing of any of those mentioned. John Gary Evans will hardly be in it, if the situation is understood correctly. What effect that will have remains to be seen.

And as to Irby and his men. Irby came from Washington a few days ago. He must have received information of the must have received information of the way affairs were going. It is stated that he has been in Columbia, but such is not thought to be the case by those who are in a position to know. He is doubtless at home watching things with a jealous eye. But if the writing on the wall is read aright he might as well have stayed in Washington for the good he will do to his side.

Some of the things told above would

A Gallant Carolinian.

This affair happened in the fall of 1863 This affair happened in the fall of 1863 when my regiment (the 1st South Carolina cavalry) was stationed at Culpepper Court House. It strikes me as being a signal instance of brayery and daring from among the many instances of that character which a long campaign is sure to bring forth, and I am not alone in considering it worthy of mention. The incident formed the subject of a commendatory dispatch on the part of Gen. Lee himself, and was the first occasion to my knowledge that a private was singled out by the commander in chief for this dis-

Private Wm. R. Bolick was the recipient of this honor, and the deed that brought him to Gen. Lee's notice was der should have exact information as to the whereabouts of Gen. Reade's quarters. Gen. Lee accordingly sent to Gen. Wade Hampton with the request to have the enemy's quarters located. General nmander, transferred the order to me. Javing had occasion to commend Bolick for his bravery and daring in difficult undertakings previously, I selected him for the task. Bolick and a comrade of his, a Virginian named Curtis, who always accompanied him on dangerous nissions, set out upon the expedition.

They successfully located the quarters

of the Union general towards evening of that day, but Bolick was not satisfied with having run the danger they had already encountered. He was determinated by the subject. It is likely that some of these ed to ascertain everything about the interior of the camp. The two men crept stealthily past the outposts, shielded by the darkness. They crept up to within a be included as well as some of the Eastfew hundred feet of the general's tent, when they came upon a guard of seven men. The men were all asleep and had piled their arms together. These were carefully removed to a distance. Then Rollick and Curtis draw thair ravolvars. Bolick and Curtis drew their revolvers and awoke the sleepers. "If you move or say a word you are dead men," said bring universal ruin to us, and rather Bolick pointing his weapon. The soldiers looked for their arms in vain and saw that resistance meant death. They upon our own resources. Fortunately ided to give in feeling sure that aid

would be forthcoming.

Bolick calmly ordered the men to rise and march, telling them to be silent. and march, telling them to be silent.
He and Curtis guided the guard with pointed pistols. As they were passing a fence two of the prisoners suddenly jumped over it and made their escape. Bolick did not fire, neither did Curtis. They knew that it would bring the whole Federal camp about their ears if they did. Federal camp about their ears if they did. So they quietly proceeded with the five remaining prisoners and safely reached

our quarters.

Gen. Lee personally wrote to me to mank Bolick for his bravery in executing the dangerous task entrusted to him. The information he had obtained proved of the greatest importance to the move-ments of our army at that time.—John L. Black, in Wilson Syndicate Letter.

Negroes in Conference.

MONTGOMERY, ALA., Feb. 21.-About 300 black belt negro farmers came to-gether to-day in the third annual Tuskegee, Ala., negro conference. Prof Booker, the president of the Tuskegee Normal and Industrial School, presided. Many distinguished people were present from the North and elsewhere and letters of regret were received from such men as C. P. Huntington, Dr. Lyman Abbott and Bishop Potter, of New York city, Robert C. Winthrop, of Boston, and President Gilman, of John Hopkins University. The most of the people were from the counties where the negroes were in the najority, but nearly every portion of Alabama and many other Southern States vere represented.

The farmers occupied the time of the

onference and gave, in their own way, an account of their condition and what they hoped to do in view of it. They spent no time in looking to the past or in fault-finding, but agreed that the thing for them to do was to lend every energy in the state of the state o n receiving education, property and ractical religion. They resolved to engthen their school subscription, to in receiving education, property and practical religion. They resolved to lengthen their school subscription, to provide better teachers and school houses and to get the best educated men to come to their relief, instead of remaining in the cities. They admitted the almost universal mortgage system and the evil influence of the one-room cabin, but they said great changes for the better had been a force a convex the heart of the said having a convex the said to said the and are being made.

A Revenue Puzzle.

KNOXVILLE, TENN., Feb. 20 .- Whening Madame Betsy Brewer, who, as is well known to all of the revenue officials about here, runs a jug house in open defiance of the laws. The assignment seems a simple one, and the unsophisti cated deputy has no suspicion of the work cut out for him, as it is easy to find the place and Madame Betsy may always be found at home.

in bringing her to justice. The Brewer cabin is situated at some distance off the weighs 580 pounds and is almost help side, and all the young deputy marshals who are taken into the revenue service in this section are given as an initatory assignment the arrest of Madame Betsy assignment the arrest of maddle betsy Brower. Nothing can ever accomplish her being brought to trial but a rallroad through an inaccessible part of the mountains or copious doses of anti-fat, and it is not probable that either of these and it is not probable that either of these two means will be employed by Uncle Sam to accomplish the ends of justice.

Mistaken for Burglars.

One of the saddest occurrences ever re-ported in the history of Arkansas County happened at St. Charles on Saturday Walter A. Ballard, a young business man of St. Charles, and William Farrar, at the hands of Wilbur Parker. William ing on delirium tremens. Early yester-day morning Farrar in his drunken condition and bordering almost on insanity broke down the doors of two or three Parker when the alarm of burglars was raised. Mr. Ballard, who slept in an adjoining store, heard the noise and ran to see what it meant. Just as he reached back room of the store, rushed out with a gun in his hand and fired a load of buck shot into Ballard's breast, from the effects of which he died last night. Parker then turned the other barrel of his gun on Farrar, fired, killing him instantly. The coroner's jury exonera-ted Parker from all blame.

KNOXVILLE, TENN., Feb. 24 .- Herman Spiro, a large manufacturer of cider, who was killed by a railroad a few days ago, all his life had a great fear of body snatchers. Some exploits of medical guarded and the next day the brother planted the grave with dynamite and advertised that fact. In an interview today he said: "I believed they would attempt to get brother's body because he died from an accident and so I decided to prevent this by putting dynamite in the grave, I did not put dynamite in the coffin, but placed it outside so it will explode as soon as a spade is put in the ground."

-L. B. Barton, eighty years of age, was married last week at Kossee, Texas, to Mrs. F. E. McKissick. They were

Hope for the White Metal. WASHINGTON, Feb. 25 .- Important and

interesting information as to the present financial monetary question is derived from Signor Romero, the Mexican minister to the United States.

In response to enquiries from a representative of the Southern Associated Press, who called his attention to the published statements that England, France and Germany were about to take the initiative in calling a new monetary conference to consider the silver ques-tion, Mr. Romero said: "The Secretary of the Treasury of the Mexican Government informed me by a personal letter, dated January 19, 1894, that according to private advices the German Government was leaning towards a policy regarding silver which would prove favorable to that metal, and that it was almost sure that the international conference would convene again with better chances of fa-States or any of the commercial nations of Europe take steps to promote the interests of silver, it becomes the Latin-American nations using that metal as

money to keep in the back ground and follow the lead of others. "But if the information should prove incorrect, the situation of States using silver as money becomes so difficult that hey will have to take the question into their own hands and come to some con-

of the world. It is impossible for Mexico to demonetize silver, because that would bring universal ruin to us, and rather upon our own resources. Fortunately we can produce enough agricultural

change.
"The commercial nations of Europe are more particularly concerned in the question by the high prices of exchange, for the difference between the price of gold and silver constitutes such a great bounty to exports for the commodities of silver countries, which are produced at silver countries, which are produced at silver prices and sold on the old markets at gold prices, and this so increases the price of foreign manufactures, that it creates a great incentive to develop home so that while increasing the exports of silver countries to gold markets, the deprecation of silver very seriously cripples the exports of Europe into the silver countries."

Mr. Romero's views on this matter are shared by the diplomatic representatives of other Latin-American countries. It is pointed out as a hopeful sign that the German Government already has a com-mission considering the subject, over Treasury presides. Among the questions presented to that commission were tions presented to that commission were those of keeping stable the price of silver, and the best basis for an agreement of nations on the subject. The changed attitude of European nations, it is suggested, may be due to the discovery that the Latin-American nations are seriously englished to constitute the constitution of t considering the probable effect of con-certed efforts on their part for the pur-pose of defending silver. It has been pointed out that these countries are getting tired of paying twelve pence interest on their bonds instead of six pence, and that they were determined to resist absolutely a further increase in the rate of interest, which would be caused by a further fall in silver.

Wants a Comfortable Coffig.

been sick a day in his life, and is prietor that he wanted to purchase a coffin. The proprietor, after asking who was dead, was greatly astonished on being told that it was for the live man standing before him. Mr. Brookshire, however quieted him by saving that he however, quieted him by saying that he did not intend to die until he had to, but that he wanted to die with the knowledge teachers. A large number of women held a meeting of their own.

Many noted Southern educators are present, who will hold a conference tohim, in which he would have plenty of room. The undertaker did not seem to just what to do, and Mr. Brook-seeing his embarrassment, laid made Mr. Brookshire will try it and see if it fits him. He also says that he desires to be taken to the graveyard in his farm wagon, drawn by his team of favorite mules.

As a general tation among the Cadets. As a general thing, her representatives are first-class men. She sends very few triflers to Clemson. The fact is, triflers are not wanted here, and they soon find it out. Work is the watch word here. Any day when the weather is fit one may see equads the sleeve in a cogwheel. His right arm was torn from the socket, his right ear torn off and his chest frightfully lac-erated. Drs. Lockwood and Edwards were summoned and were with the unfor-tunate man at his home in Cannon street, near Felix, nearly all of yesterday. There is but a slight chance of his recov-

when the weather is it one may see equasof fifty boys each at work under the supervision of the Professors. The labor is all
done in the afternoons, the recitations
being completed in the mornings. Last
Friday, one squad, under the supervision
of Prof. Morrison, was piling and burning
corn-stalks in the bottoms; Prof. Clinkscales had another rolling logs at the scales had another rolling logs at the same time; Professor Harrison and Moncreiff, with their respective charges, were clearing and grubbing; while Professors Welch and Shanklin were arranging the parade ground more to the notion of Commandant Donaldson.

Notwithstanding the weather has been Notwithstanding the weather has been disagreeable, pic nic parties have begun their visits to the College campus. With six hundred Cadets at Clemson, the temptation to visit the place will be greater even than last year. We are not surprised that the people like to visit Clemson. Those of us who live here and are familtars with the historical place people people are recommended. and help pay the minister."

- The Virginia House of Delegates is discussing the calling of a constitutional iar with the historic old place, never grow tired of seeing the boys drill and work and play. Last year the presence of so many visitors interfered not a little with the working of College plans. This year the matter will be regulated by the authorities. The hitching posts have all been removed from the campus by order of the President, and, before Spring, a first-class pic nic ground will be provided between the College and the river.

There is a good joke on the Board of
Trustees that has not found its way into
the papers. On the evening of the 14th
inst., President Craighead sent a back to

ing, others prove that there is. Among the latter is Mr. I. R. Rountree, of Dun-Cherry's to meet the Trustees expected to come on that Road. The train was more barton. After paying his subscription Monday he told us he did not owe a cent than an hour late. The road between Clemson and Cherry's was fearfully mud-dy and badly cut up. About three hun-dred Cadets, old and new, got off the in the world. Besides, he has two crops of cotton and enough homemade provisions to last his family two years. Last winter he cured enough bacon to feed Trustees could not find those gentlemen in the darkness and consequent confusion. Six or eight of the old Cadets, hearing the driver enquire for his man appreciated ber up to new year. So they thrive and cost him but little. Cotton is a surplus crop with him.—Barnwell People. Six or eight of the old Cadets, hearing the driver enquire for his men, appreciated the situation, and persuaded the darkey that the honorable gentlemen of the Board of Trustees would arrive later, possibly on the next train, and assured him that the best thing he could do would be to drive them to the College. This he did, Guaranteed Cure.

there were no services held in the Chapel. The usual weekly inspection was made in the morning, and the boys kept in their quarters all day.

Our roll has increased to five hundred and fifty, and new boys are still coming in nearly every day. There are only four or five unoccupied tables in the mess hall, and these will soon be in use.

His left leg from the knee to the ankle is said to be perfectly white. He is the greatest curiosity in that section and says that he will be a whiteman before he

- A correspondent to the Charlotte Observer writes: "Among other prolific crops North Carolina has long been noted for prducing a marvellous one of little big men, more noted in this respect perhaps than any other State in the Union, except South Carolina, which leads the world in this specialty."

- A peculiar monstrosity was born on the farm of Adam Domer, a few miles daughter of the great showman, P. T.

Barnum, from whom she received the greater part of her property. Two children, one an infant a few weeks old, and dren, one an infant a few weeks old, and her husband inherit her estate, excepting one neck and one head. The animal survived its birth but a few hours.

- Mrs. A. Dillon, of Houston, Texas, left her two-year-old baby alone in a room tied in a high chair in front of a stove. During her absence the chair toppled over, throwing the child face forward upon the stove, and he was terribly burned when discovered.

present prices, but Kansas farmers have planted 4,500,000 acres this year, a larger crop than ever before. No crop is so in stock, as nearly as we can find it and the part of the business, not by cutting prices and destroying what little profit there is in it, but by keeping in stock, as nearly as we can find it and much more or nearly the same profit as he received in the West thirty-five years ago than any one imagines-Philadelphia

The charitable institutions of Chicago have not been sufficiently large to give refuge to all the poverty-stricken applicants this winter. So the city has been forced to epen its churches as a place of refuge. This is in practical harmony with the teachings of Christ. An exchange says with reference to it: "It is time the poor, the ignorant, the sick and the afflicted should have some benefit from these untaxed institutions built in God's name, but until now, with the in God's name, but until now, with the exception of the Catholic Churches, given over to those who can wear good clothes

convention. Delegate Patterson advo-cates a Constitution similar to the Mis-sissippi Constitution. Said he, "I want Virginia to follow the lead of Mississippi. I want a Constitution passed which will allow no man in the State of Virginia to vote unless he can read the Virginia Constitution or understand it when read." He said that the State could be redistricted so as to give one representa-tive to every thirty thousand voters and assure the supremacy of the white race in - Some say there is no money in farm-

We authorize our advertised druggist t sell you Dr. King's New Discovery for Consumption, Coughs and Colds upon this condition. If you are afflicted with members, of the Board to make their way as best they could. An open wagon with planks across the body was the best conveyance the Trustees found at hand.

L. D. C. a Cough, Cold or any Lung, Throat or Chest trouble, and will use this remedy as directed, giving it a fair trial, and experience no benefit, you may return the bottle and have your money refunded. We could not make this offer did we not know that Snow began falling Saturday evening at "Retreat" and when we awoke at "Reville" Sunday morning the Campus was covered. The weather was so inclement size 50c. and \$1.00.

Since its first introduction Electric Bitters has gained rapidly in popular favor, until now it is clearly in the lead among pure medicinal tonics and alteratives - containing nothing which permits its use as a beverage or intoxicant, it is recognized as the best and purest medicine for all ailments of Stomache, Liver or Kidneys. It will cure Sick Headache, Indigestion, Constipation, and drive Malaria from the sys tem. Satisfaction guaranteed with each bottle or the money will be refunded. Price only 50c. per bottle. Sold by Hill

THE Township Boards of Assessors of all the Townships in the County are hereby requested to meet at this office on Tuesday, March 6, 1894, for the purpose of the respective Townships for the fiscal year 1893-94

The following will compose the local

Belton—L. D. Harris, J. J. Vaughn and M. A. Mahaffey.
Broadaway—J. J. Major, J. R. Anderson and John T. Martin.
Brushy Creek—W. S. Murphy, J. Jameson and J. T. Wigington.
Centreville—W. T. McGill, Thomas H. Burriss and William Brown.
Dark Corner—A. M. Cheek, John T. Morgan and James L. Jackson.
Fork—J. M. Broyles, R. A. Sullivan.

Fork—J. M. Broyles, R. A. Sullivan and T. J. Dalrymple.
Garvin—A. W. Pickens, W. H. Martin and T. T. Wakefield.
Hall—C. H. Bailey, H. M. Tate and S. W. Watt. Honea Path-J. V. Kay, J. K. Clement

Pendleton—J. W. Major, J. W. Roth-rock and Samuel McCrary. Rock Mills—L. O. Williford, C. B. Gil-mer and J. P. Anderson. and J. C. Winter. Varennes-R. B. Dean, J. T. Hanna and B. McCown. Williamston-J. F. Clardy, John B.

Hogg and Geo. M. Reid.

As the work of assessing both real and personal property will be very arduous and require considerable time, I would urge that the Boards meet, organize and proceed to work as early in the day as pos-Auditor Anderson County

All persons having demands against the Estate of Burrel Johnson, deceased, are hereby notified to present them, prop-erly proven, to the undersigned within the time prescribed by law, and those indebted to make payment.

We announced a couple of weeks ago that we had placed orders for a full line of Paints, Oil and Glass. We desire to say now that the goods are in stock.

Our purpose is to do part of the business, what the people want, and in such quantities that when the color is selected and the cont act given out, the Paint can be had without delay.

Of course we don't expect to sell all the

Paint sold here, or even nearly all of it. No one concern can do that. Nor do we claim to be the only house in Town hand-ling good Paint and plenty of it. We don't claim to sell Paints cheaper than our competitors can buy them, for the truth of the matter is they can buy as cheap as we do; but we do claim to han-dle as good Paint as anybody, and that we will sell it as cheaply as you can buy it here, or get it elsewhere and ship it in.
We mean business, and if you don't believe it try us.

Men say: "Yes, my house needs painting, but I can't afford to have it done now.

away, and it is rotting and going to ruin, but times are too hard, and besides Paint is a luxury that only the rich can afford to

enjoy!"

Your children need shoes, you need a hat; are you going barefooted and bareheaded because times are hard and the rich wear shoes and hats? Cf course not. Then why let your house rot down for want of Paint? You say, "Oh, it costs so math." How do you how? Have you

B. F. BROWNE.

Experienced and Skillful in the Repair and Timing of Fine Watches. RAILROAD Medium Grade Watches cannot be regulated in different positions until escapements are equipoi and made subject to regulation in all posi-tions, before they can be relied on for as curate timing, so necessary for exact schedules. This work solicited at Reed's Music House, Anderson, S. C. Faithful work, and moderate charges only for the work done.

Give us a trial.

Yours ready to please, FANT & SIMPSON.

> PIANOS AND ORCANS. Things to Remember when you Go to Buy.

A PIANO or ORGAN is something about which ordinary buyers know absolutely nothing. The market is flooded with cheap rattle-traps, which to the eye look as well as really good instruments. They are actually sold at about three times their value. Ludden & Bates Southern Music House being the largest buyer in the South is able to represent only best instruments made. Every man in its employ is an expert in his line, and they permit no faulty instrument to leave their warethey permit no faulty instrument to leave their wareroons. Buy only from a House with an established reputation for skill and fair dealing. For further particulars write or call on
